

■ Within-region (G_w)
 ■ Net between-region (G_{nb})
 ■ Transvariation (G_t)
 ◆ Total Gini

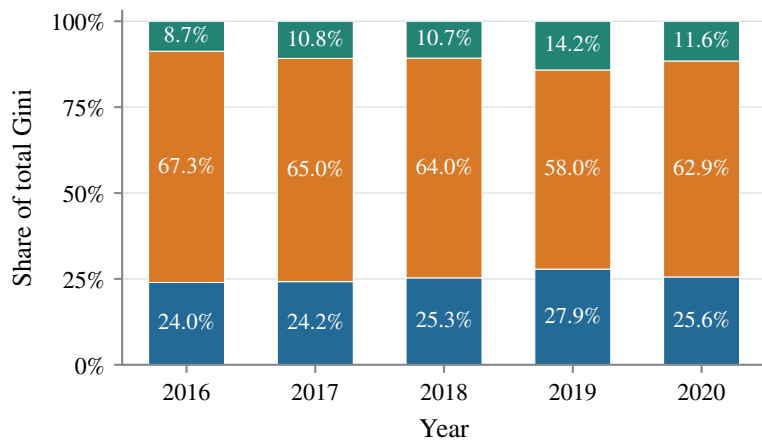

(a) High-quality development (Y)

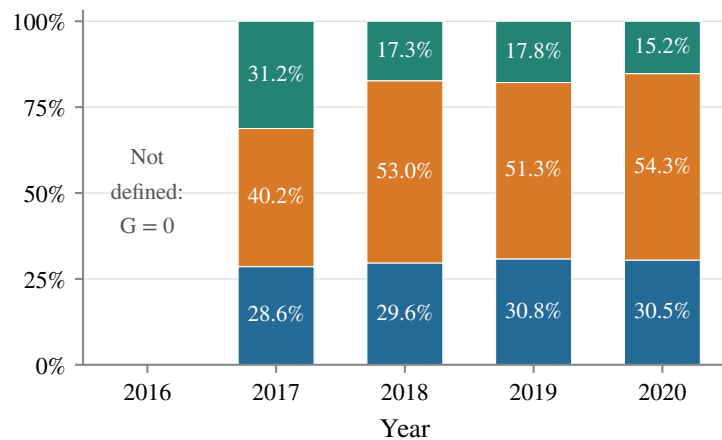

(b) Cumulative agricultural TFP (X)

(c) High-quality development (Y)

(d) Cumulative agricultural TFP (X)

Components sum to the national Gini. Shares are undefined when the total Gini is zero.

Transvariation captures cross-region distributional overlap. Region sizes: East 11, Central 8, West 12.
